

P.I. WORKS UI Specification Documentation

This is User-Interface Specification document for introducing the application

User-Interface Design

The mockup shows a user management interface. At the top, there is a '+ New User' button and a 'Hide Disabled User' checkbox. A 'Save User' button is located in the top right corner. Below these is a table with the following data:

ID	User Name	Email	Enabled
1	AdminUser	admin@piworks.net	true
2	Test User	testuser@piworks.net	true

To the right of the table is a 'New User' form with the following fields:

- Username :
- Display Name :
- Phone :
- Email :
- User Roles :
- Enabled : ☐

A dropdown menu for 'User Roles' is open, showing the following options:

- Guest
- Admin
- SuperAdmin

Purpose

Purpose of the Project is creating a user-friendly interface that user can enter his/her informations , control the enabled or not and add new user to list.

Requirements

This UI Design design requires 2 button , 2 checkbox , 5 input and 1 table with 4 coumns.

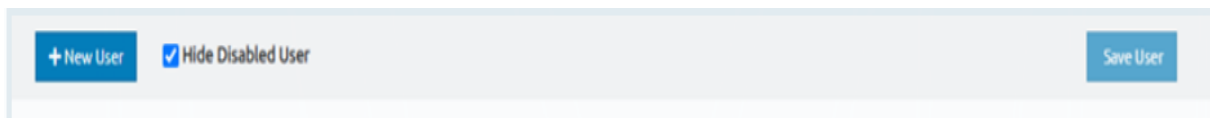

What To Show At Beginning

If page doesn't upload with the time , a Loading GIF can be used for user experience.If user didn't add new user and didn't clicked New User button , there can be "Welcome to User System.If you want to add a new user please click the New User button" p tag used.

UI Components and Behavior of Design

This UI Design has 3 parts : Navbar, New User Form and User List.

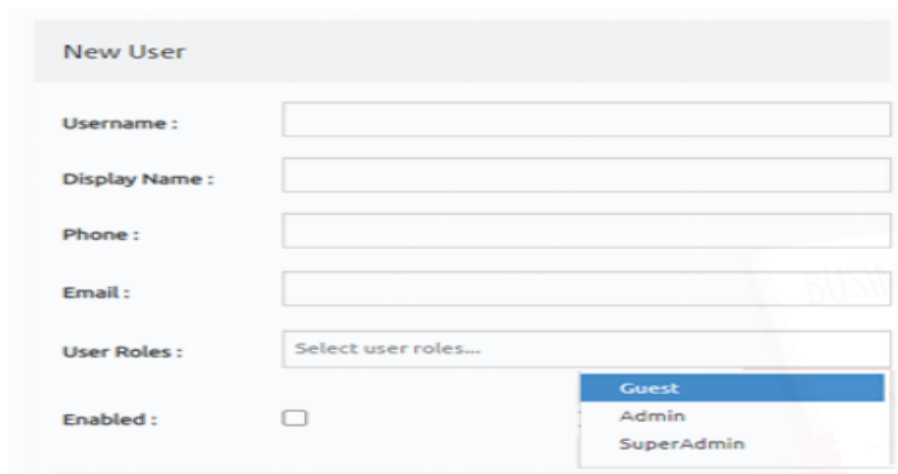

-Navbar

At the top of the page user can see the Navbar. Navbar has 3 parts : New User button , Save User button and Hide Disabled User checkbox. When New User button clicked , New User Form can be opened or closed.

When Save User clicked , we can add new user and save it. With Hide Disabled User checkbox , we can control to Show or not user that are disabled.

-New User Form

A form titled 'New User' with a light gray header. Below the header, there are several input fields: 'Username :', 'Display Name :', 'Phone :', and 'Email :'. Below these is a dropdown menu for 'User Roles :'. The dropdown is open, showing three options: 'Guest' (highlighted in blue), 'Admin', and 'SuperAdmin'. At the bottom, there is an 'Enabled :' label followed by an unchecked checkbox.

At the right side of page user can see the New User form. At that form ; user can enter user-name , the name that he/she wanted to display , user's phone number , user mail. User can choose user's roles that can be Guest , Admin or SuperAdmin. At enabled checkbox , user can decide whether it is enabled or not.

-User List

ID	User Name	Email	Enabled
1	AdminUser	admin@piworks.net	true
2	Test User	testuser@piworks.net	true

At the left side of page user can see the User List. At the User-List there is a table with 4 columns : ID , User Name , Email and Enabled. ID shows the ID number of user. User Name Shows the name of user. User mail can be seen from Email part. User can see if the user is enabled or not.
